"Connect, Learn and Empower"

### CEO's Corner

Ajay Prasad

Hello FirstBit Digital Associates,

I am sure everyone is ready to ring in 2022 after a miserable 2021, the year when the Delta variant of the pandemic was worst, and many of us lost our loved ones. Let us all pray together for a better and safer 2022.

Despite the pains we all endured, the show must go on, as Raj Kapoor so effectively said in Mera Naam Joker when he showed up to make everyone laugh the day after his mother passed away. Anyone who has not seen it should see the movie, and it is one of the most inspiring movies of my lifetime.

I am always excited about the future because we can shape some of it through our planning and efforts, especially when it comes to the future of a business. With that in mind, I am asking everyone's help to reach the following landmarks in 2022:

### Know Your Colleagues

#### Chandan Kr. Gupta

Born and raised in Patna(Bihar), I completed my academics at Patliputra University. Currently, I handle RepuTally and RepuGrade projects and report to Sumit Verma. I joined RepuGen Team in February 2021 as a Jr.Software engineer. I have learned many technical things and soft professional skills here, and still, there's a lot to learn as learning never stops. I am learning, exploring, and enjoying every aspect of my work with this team, as all team members are very supportive. Besides work, I like Gaming, watching movies, learning, and exploring new things.

#### Sumit Raj

Born and raised in Patna, Bihar, I Completed my B.MC from St. Xavier's College in 2020. I started my career as a Graphic Designer & Video Editor (freelancer) during my college life. After graduation, I was probably planning to move out to Delhi, but I received this golden opportunity and joined RepuGen in February 2021 as a Visual Content Creator. I've learned a lot from my colleagues, and I am still learning. I love playing video games, watching anime shows, writing journals, creating animations & AMV's, photography, astrophysics, listening to podcasts, and more in my free time. It is important to draw inspiration from different places, right!

### The Management Desk

#### Mahesh Kumar Marketing Guru

Thank you for being a team that we can count on. Life is full of ups and downs and everything will not always be smooth. This is something we all faced during a pandemic, but things can get better if we work together and take care of ourselves. We did great teamwork on firmer ground for future success and shall continue to do so. Last year, the team missed face-to-face interaction with colleagues, but this year won't be the same. We will meet again in the New Year with a lot of new ideas and new energy. Let's continue to put in all our efforts and see success as we did this year. Wishing all of you a very happy and prosperous New Year!

#### Abdul Aziz Tech Guru

I see the company growing year over year. Achieved so many challenges so far. Still, a long way to go. A more proactive and more action-oriented approach is to be followed. I am sure 2022 will be a vibrant year for the company. I am confident to achieve new heights with the wonderful and energetic team we have. I wish everyone a very Happy and Prosperous New Year 2022!

#### Pravin Singh HR

New year greetings all round. May the New Year bring us more wonderful opportunities to work together!

We appreciate Vishal Kumar & Ram Thakur for the fact that their excellent results with **QuickFMS & GMRT** resulted in better business results. This has led to the unprecedented step of announcing a bonus for them. Congratulations Vishal & Ram. Kudos Rahul & Abhay on this performance. Your strategy seems to have worked and your team rocked.

### Welcome, New Hires!

Please join me in welcoming & extend Congratulations to Tarannum Fatma, MD Soaib Ansari, Akash Kr. Jha, Harendra Chandan.

Tarannum Fatma

MD Soaib Ansari

Akash Kr. Jha

Harendra Chandan
