Please send your response to pravinsingh@gmrwebteam.com

The first three correct entries will get a coupon of Rs. 500.

Know Your Colleagues

Abhishek Narayan

Hello, I'm a UI/UX designer born and brought up in my hometown Patna. I did my Bachelor's degree in Computer Application from Nalanda Open University. I joined FirstBit Digital Technologies in August 2020 as a fresher. Here, I have learned a lot from seniors and amazing colleagues and got the confidence to rise, which has eventually helped me to take ownership of the work with expected quality. I love to listen to music, play cricket and enjoy myself with family in my free time.

Riya Rani

Hello! I completed my graduation from BCA in 2019. While working on several projects, I discovered I enjoy analyzing data and incorporating creative ideas more than creating software. By the end of 2020, I finally decided to build my career in Digital Marketing! Fortunately, after several efforts, I got an opportunity to work in FirstBit Digital Technologies in May 2021 with the most supportive and genuine team members. Apart from work, I aim to keep growing by working on my flaws and becoming better each day. I believe this habit of mine gives me a sense of satisfaction and an inner inspiration to keep moving forward without failure.
